## Rigor Mortis

Primitive and deviant like prehistoric man  
Intimidate infuriate 'cos I don't fit your plan  
The way I act the way I look the things I have to say  
Scare you into persecution try to change my ways  
    You won't change me  
I don't care what you have to say  
    I live my life my own way  
    I won't conform to your rules  
    I won't be led by your fools  
    You won't change me  
    You can't break me  
    Throwback  
    Throwback  
I hate you you hate me never ending fight  
Hunt me judge me take away my rights  
Analyze scrutinize every move I make  
Try your best waste your breath I will never break  
    [chorus]
