Wonderman (Hammer Smashed Ball)

Atom and His Package

Dave Mandell, I'm disappointed
Your life can't be so disappointing
It's Saturday night all night, let's get out
Well, out on the streets, the city is callingIt's you and me and Mike makes three
And we all know what we're doing
It's not enough to say you're there
When we knew that you were fallingHey man, what's become of our heroes?
It's a sign of a new form of gravity
Hey man, what's become of our heroes?
It's a sign of a new form of gravityOh my God, your power is boring
A terrible bird-cake in the sky
Your wide-awake is fucking snoring
Your invisible plane is, hi, well, well, well, well I
Well, I can see itIt's you and me and Mike makes three
And we all know what we're doing
It's not enough to say you're there
When we knew that you were fallingHey man, what's become of our heroes?
It's a sign of a new form of gravity
Hey man, what's become of our heroes?
It's a sign of a new form of gravityHey man, what's become of our heroes?
It's a sign of a new form of gravity
Hey man, what's become of our heroes?
It's a sign of a new form of gravity
