

# Brand New Bass Guitar

## Jamie T

Well I, I went to buy myself a handgun  
Why you think man, to shoot down everyone  
So you better go running star  
But I spent all my money on this cracked out piece of shit called the bass guitar

Well here we go  
With a break down low  
Say hello baby

We all know what you got to do  
Always just comes down to you  
We all know what you got to do man  
Always just comes down to you

Shut that door  
Spewing all over the floor  
Say hello baby

Well I, I went drinking down at the bars  
I went drink driving in your Mama's car  
So you better go running star  
Cause right now I'm not sure if I can drive for shit but fuck it, ahhaha

Well here we go  
With a break down low  
Say hello baby

Run young son got himself a brand new bass guitar  
Young son got a brand new bass guitar  
Young son got a brand new bass guitar

---
