

Piece of Heaven

Ebrahim

Verse

She was perfection
When I first laid eyes on her
Never thought in a million
She could exist on God's green earth
Spent some time apart
But I always knew deep in my heart
Nothing could compare
To the love that we shared

Pre

Should we never meet again
At least I can say
That I called you my friend
You were my little piece of heaven
And that's all that I need

Chorus

From throwing sand in the sandbox
Holding hands in the shade
Singing songs at late night
Touching elbows in first grade
I'll never forget a moment
All the good and the bad
All our time was well spent
I count the blessings that we had

Verse

Sometimes I wonder
If you sit and think about me
Well that's okay, girl, if you don't
I'm sure you got your own life to live
All I know is that my life
Has never been the same since
You flashed that pretty smile in front me
Made me never want to say goodbye

Pre

Should we never meet again
At least I can say

That I called you my friend
You were my little piece of heaven
And that's all that I need

Chorus

From throwing sand in the sandbox
Holding hands in the shade
Singing songs at late night
Touching elbows in first grade
I'll never forget a moment
All the good and the bad
All our time was well spent
I count the blessings that we had

Bridge

You told me right from the start that
You didn't want to play with my heart
It was risk that I decided to take
Now I don't regret a thing
No I don't regret it one bit
You were so precious to me
In the time that we spent
You were my piece of heaven on earth
That I'll never forget

Chorus (2x)

From throwing sand in the sandbox
Holding hands in the shade
Singing songs at late night
Touching elbows in first grade
I'll never forget a moment
All the good and the bad
All our time was well spent
I count the blessings that we had
