

# Throwing Punches

## Helmet

Darlin' was a hit  
Started throwing punches  
She connects, never gets  
What she wants And she wants She's unhinged  
Swears now that was then  
Just a little glitch  
You patch it up again And she wants  
And she wants  
And she wants So far I don't understand this  
There's no misunderstanding, there's nothing here to get  
But she wants more than my attention  
She's not above invention, well, I don't really care It's unreal, she'll tell  
You what you wanna hear  
Feel her infection  
Touch you and you rot And you rot  
And you rot  
And you rot So far I don't understand this  
There's no misunderstanding, there's nothing here to get  
But she wants more than my attention  
She's not above invention well, I don't really care You don't know what you want  
Or how far you fall when you're unhinged  
I'm coming back for more  
Well, I was only horny So far I don't understand this  
There's no misunderstanding, there's nothing here to get  
She wants more than my attention  
She's not above invention, well, I don't really care
