SPEAK

This is my second life
And it's hell or paradise
Those circles in your eyesBut I won't let you die twice
Cause if this is what it takes
To make us feel ashamedI won't live my life again
Cause I've got the only heaven I want.
I'm not fighting for the end
Cause right now we're better lost than we're found.Maybe we'll get it all
If we choose one night
And we both choose rightBut it's hazy before the dawn
When it's so hard to know
It's so hard to knowSo no I won't...I won't live my life again
Cause I've got the only heaven I want.
I'm not fighting for the end
Cause right now we're better lost than we're found.I won't, I won'tThen no I won't...I won't live my life again
Cause I've got the only heaven I want.
I'm not fighting for the end
Cause right now we're better lost than we're found.
