

Missing Me Some You

[Toby Keith](#)

Midnight in the desert and so far away
Finger nail moon dancin' through the Milky Way
And stars down in Dixie look the same way here
And I got your picture stuck down in my battle gear Oh, I can sing that song, you know the one that drives you
wild
And close my eyes and dream but I can't kiss my baby's smile
Even the man in the moon is singin' the blues
Hope you still love me baby, I'm missin' me some you When your head hits the pillow, would you pray for my
soul?
That's when your little soldier goes out on patrol
Never thought when I kissed you goodbye in Tennessee
That I'd ever be lonely, I'm about as lonely as one man can be I can sing that song, you know the one that drives
you wild
I can close my eyes and dream but I can't kiss my baby's smile
Even the man in the moon is singin' the blues
Hope you still love me baby, I'm missin' me some you
I miss you, baby I can sing that song, you know the one that drives you wild
I can close my eyes and dream but I can't kiss my baby's smile
Even the man in the moon is singin' the blues
Hope you still love me baby, cause I'm missin' me some you
Oh, I hope you still love me baby, 'cause I'm missin' me some you, yeah
