

Looking Down

De Capulet

Yeah, my shadow stretches far and free
Yeah, it's telling me what I could be
Could be 'Cause I'm tired, of looking up
All the time We'll stand on top of the world
Looking down
We'll stand on top of the world
Looking down Yeah, we'll set ourselves apart in time
Yeah, and then we'll leave it all behind
I'll rise 'Cause I'm tired, of looking out
For the line We'll stand on top of the world
Looking down
We'll stand on top of the world
Looking down We'll stand on top of the world Yeah, is anybody here like me?
Yeah, can you face the sound
And decide? We'll stand on top of the world
Looking down
We'll stand on top of the world
Looking down We'll stand on top of the world
Looking down
To rise above on our own
Looking down
