

Try Again

New Edition

Baby we can try again
If you're ready
Baby we can take it slow
If you're ready I've been around
You know the things I used to do, uh huh
Girl I never thought
Never thought I'd find someone like you, babe
Girl I need you in my life Baby we can try again
If you're ready
Baby we can take it slow
If you're ready If you were mine
All the things of yesterday are no more
They're all gone
And I can say, "With a love like yours what more would I need"
Uh, girl I need you in my life Baby we can try again
If you're ready
Baby we can take it slow
If you're ready Oh I'm waiting for someone like you
To love me, to hold me, hold me
To care for me
Like no other Baby we can try again
If you're ready
Baby we can take it slow
If you're ready
...
