

Blow the System

Bella Thorne

lay or not play it to me
Drop the beat make it hard to move me
Don't waste my time you lose me
Let's go
Come close take me on a journey
On the main light streets you know me
It's about that time to show me[Pre-Chorus:]
I just want what's mine
Make me come alive
Let's go for a ride
You know the time is right
Let's take the morning flight
Let's reach for the sky
Higher [x7][Chorus:]
Blow The
I've got that burning fever
On the dance floor where I need my
Turn it up
And bump the speaker the volumes way too low
Just keep up with the rhythm
Let lose I'll
Blow The System [x2]
Come on now here we go[Verse 2:]
Shhhh quit talking to me
Imma boss gotta rush it to me
Want the baseline flowing through me
Come close take me on a journey
On the main light streets you know me
It's about that time to show me[Pre-Chorus:]
I just want what's mine
Make me come alive
Let's go for a ride
You know the time is right
Let's take the morning flight
Let's reach for the sky
Higher [x7][Chorus:]
Blow The
I've got that burning fever
On the dance floor where I need my

Turn it up
And bump the speaker the volumes way too low
Just keep up with the rhythm
Let lose I'll
Blow The System [x2]
Come on now here we go Oh way oh [Verse 3:]
Feel the pressure rush
Let's tear the house down
Turn the up sound
Get the dice then roll em out
And when you've had enough
I'll make it louder [x7]
NO! [Chorus:]
I've got that burning fever
On the dance floor where I need my
Turn it up
And bump the speaker the volumes way too low
Just keep up with the rhythm
Let lose I'll
Blow The System [x2]
Come on now here we go Oh way oh
Uh!
