

Reach

Lo-Pro

I run away but never have to go far
'Cause I know a place where I'll be
(Living in my head)
Far away from everything You'll never reach me, never see me
(Sinking any lower)
You'll never reach me, never see me
(And that's what makes me happy) Up here again I always win
'Cause I know a way, 'cause I know a place
(Living in my head)
Far away from everything You'll never reach me, never see me
(Sinking any lower)
You'll never reach me, never see me
(And that's what makes me happy) All around me I've heard
Empty faces speaking empty words You'll never reach me, never see me
(Sinking any lower)
You'll never reach me, never see me
(Sinking any lower) You'll never reach me, never see me
(Sinking any lower)
You'll never reach me, never see me
(And that's what makes me happy)
Living in my head
