

Write It Down (Gimbarr en F (Ivano-Frankivsk))

Nine Lashes

I've been waiting for things to change
Such loss of time and it's still the same
They'll raise the questions
But they'll kill the answers Write it down Scream it aloud
Don't let it go
There's so many deafened ears
So dead in wrong
Cause simple is as simple goes
If only the deaf would hear Focus found the center once again
Just remember the change is all there is
Cause they'll break the questions on me
Till I give the answer Write it down
Scream it aloud
Don't let it go
There's so many deafened ears
So dead in wrong
Cause simple is as simple goes
If only the deaf would hear I can make the sound
They can't hear me If I state the obvious, I'm alone
Wrapped up in all this on my own Write it down
Scream it aloud
Don't let it go
There's so many deafened ears
So dead in wrong
Cause simple is as simple goes
If only the deaf would hear
