

Let Go

Home Grown

Why be concerned with things
That you don't have control over?
What good is it to worry
When you never really know what's going to happen?Woah, woah
Woah woah, woahTomorrow's just another day
You'll find your way, you'll be okay
You just have to learn to let go
Let goWhen things get you down
Should you look back? No, turn your head around
And take things one day at a time
But plan ahead for mountains you have yet to climbTomorrow's just another day
You'll find your way, you'll be okay
You just have to learn to let go
Let goTomorrow's just another day
You'll find your way, you'll be okay
You just have to learn to let go
