The Massacre

Spectrum-X

Skin into pieces, watch it and hold it down
This blood is on your hands, it makes me feel so good
On the surface, and there's no turning back
But I promise, I promiseYou in here is the best thing that ever hit your life
I promise that you'll survive
Oh God, I hope you're listening nowWhat have I done, I don't deserve this
I can't get out of here, get out alive
What have I followed, I'm right besides you
I'm over it, I'm over itSkin into pieces, watch it and hold it down
The blood is on your hands, it makes me feel so good
On the surface, and there's no turning back
I know that this seems like the end
But I promise, you can make itWhat have I done, I don't deserve this
I can't get out of here, get out alive
What have I followed, I'm right besides you, besides you
I'm over it, I'm over itYou in here is the best thing that ever hit your life
I promise that you'll survive
Oh God, I hope you're listeningWhat have I done, I don't deserve this
I can't get out of here, get out alive
What have I followed, I'm right besides you
I'm over it, I'm over itWhat have I done, I don't deserve this
I can't get out of here, get out alive
What have I followed, I'm right besides you
I'm over it, I'm over it
