John Hughes

Dendera Bloodbath

I'm not living alone with my memories
Hiding from the spectre of you
Only want the best for you honey, hope you're swimming in that ocean of money
Anything and everything you do

Chorus:
No I never wanna tell you goodbye
Only want to wipe the tears from your eyes
Between the holy ghost & Jesus
Daddy we can still get by

Sleep baby sleep
Close your little eyes & tell me goodnight
What if your every dream came true
Would it be enough for you
This time

No I never wanna tell you goodbye
Only wanna wipe the tears from your eyes
Between the Rolling Stones & Beatles
Brian this time you'll survive

Where'd you get all them fancy clothes
You cut your hair & fixed yr nose
I almost didn't recognize that face
Last time I saw you I was a mess
Hanging out of my party dress
Jock, prep, nerd, criminal, & basket case

No I never wanna tell you goodbye
Only wanna wipe the tears from your eyes
Between the holy ghost & Jesus
Daddy somehow we'll get by

He's the very best thing
To ever happen to me
I was blinded for so long but now I see
Train tracks running through my past
I've been hurt but I had a blast

Let's ride the rails until we reach the sea

No I never wanna tell you goodbye
Only wanna wipe the tears from your eyes
Between the Rolling Stones & Beatles
Brian this time you'll survive

It's enough to keep believing
This time it's gonna work out fine
