

Wave Motion Gun

Marcy Playground

Backstage behind the curtain there's an
There's an armchair with a secret engine and you
You climb in and get naked watching star blazers
Wish you had their amenities
To fend off your enemies
In one big blast from your wave motion gun
And so you reach down to that secret panel and there's a
There's a whole raft of little buttons and you
You pick one and hope it takes you to Mars
Soon there'll be no pain again
You'll feel like yourself again when you shoot all your heroin
In one big blast from your wave motion gun
And so downstairs behind the oven there's a

There's a dark hole where, where the gas comes in
You know you should, you should climb in
It'll get you there so much faster
Soon there'll be no pain again
You'll feel like yourself again when you shoot all your heroin
In one big blast from, in one big shot from
In one big blast from, in one big shot wave motion gun
Wave motion gun
Wave motion gun
Wave motion gun
Wave motion gun
Wave motion gun
Wave motion gun
