

Resolution

Emigrate

Lost all self control
Don't know where to go
Take a piece of soul
In my mind I take a hold Confusion, solution
Conclusion, resolution
I can feel, I can see
The resolution, I do Put myself through tests
Move from east to west
Fight for what is best
Can't forgive the token stress Confusion, solution
Conclusion, resolution
I can feel, I can see
The resolution, I do, I do I can see the resolution
I do, I can see Strange to lose the show
Take it fast then slow
Captive to myself, I can see, I do
I can see the resolution
