

# The One

## Garbage

Yeah right from the start you had me hooked  
And I knew I was falling  
And sure you had me sussed  
You worked me out  
You took me right out your doubt  
Call me a lawyer  
I want to micro manage  
I need a hit man  
Get me the operator  
Call me a doctor I cannot lose control  
There must be someone  
A robot, a terminator?  
He got me eye balled  
He got me tied down  
He got me roller coaster  
  
Help me man down  
Don't wanna talk about it  
I know a lot about it  
He got me on the ropes and I don't like it  
You might be the one for me  
You might be the one  
The one  
You know what I want  
You see me sweat and lose all confidence  
And yeah you mess me up  
I'm back to front  
You know I want you don't you?  
You might be the one for me  
You might be the one  
The one
