

Nothing

A

Nothing
And nothing's where you're at
When you ain't got something
You'll never get it back It's coming on like a drug
The universal power of one
But it don't mean nothing
If it all comes undone Fly away
If you fly away
You might die today
If you fly, if you fly Gimme some love
Gimme some skin
If we ain't got that then we ain't got much
And we ain't got nothing, nothing Gimme some love
Gimme some skin
If we ain't got that then we ain't got much
And we ain't got nothing, nothing You're left with nothing
And nothing's what you've got
When you ain't got no-one, no-one
You could have had the lot And if it's over today
You'll never get that thing
You had together, no way
You only get it once, once Fly away
If you fly, if you fly Gimme some love
Gimme some skin
If we ain't got that then we ain't got much
And we ain't got nothing, nothing Gimme some love
Gimme some skin
If we ain't got that then we ain't got much
And we ain't got nothing, nothing We ain't got nothing
We ain't got nothing
A day's a number
Don't remember how you found it You will never feel the same
And forever have to take it for granted
Don't remember our mistake Gimme some love
So gimme some skin
If we ain't got that then we ain't got much
And we ain't got nothing, nothing Gimme some love
So gimme some skin
If we ain't got that then we ain't got much

And we ain't got nothing, nothing Gimme some love
So gimme some skin
If we ain't got that then we ain't got much
And we ain't got nothing, nothing So gimme some love
So gimme some skin
If we ain't got that then we ain't got much
And we ain't got nothing, nothing Gimme some love
So gimme some skin
If we ain't got that then we ain't got much
And we ain't got nothing, nothing
