World To Burn

Revelation Theory

This is the last time I'll wait
I forced my self here
Listened to all I can take
(I try and wash it away)
I still remember the fallout that can't be erased
(Bite my tongue now)
I can't believe all the ways that you hold me I break
This is the world that you burn
This is the life that you waste
How does it feel on your own
Now that you're pushing me away?
Cast out the storm in my head
I've tripped and fell in
Caught in my conscience again
(I try to push it away)
In case you forget I'll boldly just let it all fade
(Search the silence)
I can't believe all the lies that you tell me I break
This is the world that you burn
This is the life that you waste
How does it feel on your own
Now that you're pushing me away?

Away, away, away
This is the world that you burn
(You're pushing me away)
These are the lives you waste
(You're pushing me away)
How does it feel?
(I still remember the fallout)
How does it feel?
(I can't believe all the ways that you break)
This is the world that you burn
This is the life that you waste
How does it feel on your own
Now that you're pushing me away?
This is the world that you burn
(I can't believe all the ways that you hold me I break)
This is the life that you waste

How does it feel on your own
(I can't believe all the lies that you tell me I break)
Now that you're pushing me away?
Away, away
I can't believe all the ways that I break
