

Believe in Me

ATB

It's been some time since 97
When you chose to sail away
Now take a seat and stay forever
And make me stop countin' the dates Lately, I heard you're doin' well
Though I don't know how that feels Believe in me after all
Believe in me and hear me call
There's a world behind these walls
That I just need to see, believe in me Every dream that had been shattered
Disappears without a trace
Now that I've found what really matters
Yeah, after you had gone away Even though you had been doin' well
Don't you hide behind a smile And just believe in me, believe in me
Believe in me, believe in me Believe in me after all
Believe in me and hear me call
There's a world behind these walls
That I just need to see, believe in me
