

# Leave Me Alone

## Twiztid

Can't understand your shit  
You fuckin' idiot  
Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!  
Better watch your mouth  
Before I knock you out  
Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!Fuck are you lookin' at?  
Give you a fuckin' slap  
Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!This ain't no way to live  
Something has gotta give  
Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!Please, please, please let me fall asleep  
I might be sufferin' from all this attention  
My mind won't give it up  
Now I'm like what the fuck?  
See your world  
See my world  
No connectionSee me die for you  
Watch me cry for you  
Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!This ain't no fuckin' style  
Just cause you're in denial  
Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!I'm no good for you  
And you know it too  
Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!I know I need some help  
Can't trust my inner self  
Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!Please, please, please let me fall asleep  
I might be sufferin' from all this attention  
My mind won't give it up  
Now I'm like what the fuck?  
See your world  
See my world  
No connectionSave your hater shit  
For that other bitch

Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!I'm out of cigarettes  
Something that you'll regret  
Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!I don't care no more  
What are we living for?  
Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!Wrap me in celophane  
To me, life's just a game  
Fuck you, just leave me alone today  
Fuck you, just leave me alone today!!Please, please, please let me fall asleep  
I might be sufferin' from all this attention  
My mind won't give it up  
Now I'm like what the fuck?  
See your world  
See my world  
No connection
