Crowded Heart

Sinne Eeg

Clouded moon,
upon a star, the sky
much too soon
to safe I will goodbye
everytime we kiss
I see the shades are wrong
I can't go on with this
better sweet melodyNever spring
as long as he wears
a golden rain
that comes between us
how will I win his heart
when I know it's wrong
to sing the song
this better sweet melodyCrowded heart
one for two
save my part
clear the view
Time to run
Time to part
It's no owned this
crowded heartLet him go
and let the moonlight
stay a glow
and burn this memorie
how will I mend my heart
Well it can't be done
the song goes on
this better sweet melodyNever spring
as long as he wears
a golden rain
that comes between us
how can I win his heart
when I know it's wrong
to sing the song
this better sweet melodyCrowded heart
one for two
save my part
clear the view

Time to run
Time to part
It's no owned his
crowded heartLet him go
and let the moonlight glow
and burn this memorie
how will I mend my heart
Well it can't be done
the song goes on
this better sweet melody
this better sweet melody
