

# Man Vs Machine

## Obsessive Compulsive

[Intro:]

Yo, we in a fight for our lives  
we in a fight for our lives  
and the trick thing about it  
i dont know if we can win

and whats sad? i dont think we WANNA win[Verse 1:]

can you help me? a nigga need a job  
im desperate, for some corn on the cob  
im helpless, will i have to steal and rob?  
no black? dinner so i got to ask bob  
bob got a job but its done by a robot  
no lunch breaks so it could do a whole lot  
more than a human being and its European,  
ran by a Korean, American,  
so there I am, surrounded by aluminum  
theres no way you can run,  
theres no way you can be,

its just and me, versus modern day machinery[Chorus x2:]

its man vs machine baby  
my heads in the guillotine baby  
it might take it off clean baby

automated dreams it was man vs machine baby[Verse 2:]

Im a fly caught in the web  
a fish stuck in the internet  
dont they know im a deathly catch?  
eat this meat, every bite so full of stress  
so what can I say to you?  
im highly relatable and biodegradable  
i thought we was unfadeable  
slaves to machinery, is that the way to go?

i dont need you to fuck 24/7  
i guess that computer love  
i dont need you to love

human contact aint what it used to was[Chorus x2:]

its man vs machine baby  
my heads in the guillotine baby  
it might take it off clean baby

automated dreams it was man vs machine baby[Outro x2:]

the whole world is automated

it need to be investigated  
when people are eliminated  
what we supposed to do when its time to feed all the babies?
