Nice To Know

Fischer-Z

Speak to me from your silver screen,
We'll have no need for a go betwwen,
I can tell from here you've got friendly faces.
Don't shake your head, at the likes of me,
Or scream and shout if you got in free,
I can tell from here, you've got friendly faces.
You are really nice to know, you know,
And we're not kidding
I can't perform to a mortuary,
So come up here and make friends with me,
I can tell from here you've got friendly faces.
You are really nice to know, you know,
And we're not kidding.
