

Vegas Girl

Otherwise

That there, let me break it off
All the pressure that you got, let me take it off
I swear, we're gonna make it hot
Put your hands in the air, don't stop
I'll knock you down like you're Keri
Forget your name like Rihanna
You can run the world, Queen B
Be unthinkable, Alicia
We can go so far if she let go
And I ain't gonna leave without her
[Chorus:] This is for the girl that get down low
The whole club wanna see you go
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl
Bass coming down so hard
That little dress breaking every heart
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl
Like a vegas girl
Roll the dice, I've got your number
Hit the jackpot underneath the cover
Intoxicated, you're like a drug, girl
Grab a glass, girl rain tequila
I'll knock you down like you're Keri
Forget your name like Rihanna

You can run the world, Queen B
Be unthinkable, Alicia
We can go so far if she let go
And I ain't gonna leave without her
[Chorus:] This is for the girl that get down low
The whole club wanna see you go
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl
Bass coming out so hard
That little dress breaking every heart
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl
Like a vegas girl

It feels so right every night
Like you're in vegas, girl
(Like a vegas girl) in vegas, girl x4
[Chorus:] This is for the girl that get down low
The whole club wanna see you go
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl
Bass coming down so hard
That little dress breaking every heart
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl
