

Graced by Evil Blood

Enthroned

"Versailles, anno Sathana 1666, Louis XIV the most powerful sovereign prevail,
When darkness falls upon the kingdom, the court's descending within
The palace vaults, gathering for morbid rites"Let's start the ritual!
Dame Monvoisin, midwife from the Black Order, abortionist, dark masses organiser.
From the bourgeoisie, you brang many believers,
"Obscure daughter thou art the matter of my dreams, seduce me with your poison,
Infiltrate my veins"
Montespan, your favourite, her filter was prepared, to satiate her hunger of forbidden love,
A mixture of blood, fetus and goat sperm, gave her sexual voracity with the sun king
And made her "whore to the court".Three times the dark mass took place for her, in secret the novice was
brought to the hut,
In secret where Abbot Mariette awaited...bring forth the innocent victim!!!"Astaroth, Asmodeus, princes of
relations,
I implore you to accept the sacrifice I offer you, In exchange your servant ask the attention
Of His Majesty!"
