Reach Ya

Anthony David

If I could only, only, only reach ya
If I could only, only, only reach ya
If I could only, only, only reach ya
If I could only, only, only reach ya
Hey Mr. Stanley, he's the man, he's got it figured out
He and his family, got it planned and they'd never be without
He runs the word with just a waver of his hand
And you've probably been the victim of his influence
He's got your favorite politician in his pocket
And he'll take the food straight from your mouth if you don't watch him
He makes the rules and breaks the rules all of the time
And he gets to do what he wants to do 'cause we refuse the rules
And if I could only, only, only reach ya
If I could only, only, only reach ya
If I could only, only, only reach ya
If I could only, only, only reach ya
Hey Miss Savannah, she's been diagnosed with cancer
She has to keep this secret from her new employer
She can't afford the proper treatment from her doctor
And she's afraid that if they know this they would drop her
She tries to hide it to avoid any suspicion
They won't accept her preexisting condition
She's stressing out and amplifying all the symptoms
Hoping we get health care right so she won't be a victim
If I could only, only, only reach ya
If I could only, only, only reach ya
If I could only, only, only reach ya
If I could only, only, only reach ya
If I could only, only, only reach ya
If I could only, only, only reach ya
If I could only, only, only reach ya
If I could only, only, only reach ya
