

What a God (feat. Sharilyn Sayles)

Carey Sayles

What a God who made the world
Man and woman, boy and girl
What a God who knows my name
Though a sinner He loves me the same
What a God concerned for me
The One who set me free
What a God who does impossible
Oh what A God

What a God who came to Earth
In a manger was His birth
What a God our pain He felt
In the garden as He knelt
What a God nailed to a tree
For all sinners you and me
What a God who loves eternally
Oh what a God

What a God who never fails
I'm the head and not the tail
What a God who changes not
No matter what
What a God who transforms me
Makes me what I ought to be
What a God who still does miracles
Oh what a God

What a God oooh yes
What a God oooh yes
What a God who still does miracles
Oh what...
