Feed the Fire

One Inch Giant

Now I seem to forget
And wonder why
This is all negated
Bide the time, take it in
But it's so overrated now
But it's fine
So you always beg for more
And you were never satisfied
So you always beg for more
Your heroes died
To get out of your way
Feed the fire, same as always
Did you need me to think
If it's all true
That I am always goaded?
To lead the blind
Is all you know
As it's so familiar now?
And still you learn
To take time over whoever you kill
But still you learn but you'll burn
