Here It Comes

L.A. Guns

When you see me
I'm comin' down the road to your back door
The sound of a gun
She stood there laughin' like a life was no tomorrowI watched her fade into the dark and cruel night
Somethin' sounded like a promise
Round and round, heaven bound
Stranded in a stranger's townHere it comes, another heartache
(Here it comes, another heartache)
Here it comes, another fall
(Here it comes, yeah, yeah, yeah)Here it comes, another heartache
(Here it comes, another heartache)
Here it comes, another fall
(Here it comes)Girl, I want you
You've got the prime time in my mornin' imagination
I'll be creepin' like perfumed smoke around
No place for you to hideI'm gonna shake you, girl
And keep you satisfied
You and me, this time foreverFeel the motion set me free
Love the things you do for meHere it comes, another heartache
(Here it comes, another heartache)
Here it comes, another fall
(Here it comes, yeah, yeah, yeah)Here it comes, another heartache
(Here it comes, another heartache)
Here it comes, another fall
(Here it comes)Sweet liberation
Just like a woman she can make the water wine
Jubilation
Your sweet caresses gonna drive me outta my mindI want to let you know
Just what you mean to me
You and me this time foreverClimb inside my Jaguar
All your friends call you star
Cross your fingers, make a wish
Got the stuff I can't resistHere it comes, another heartache
Here it comes, another fall
Here it comes, another heartache
Here it comes, another fallHere it comes, another heartache
(Here it comes, another heartache)
Here it comes, another fall
(Here it comes, yeah, yeah, yeah)Here it comes, another heartache

(Here it comes, another heartache)
Here it comes, another fall
(Here it comes, yeah, yeah, yeah)Here it comes, another heartache
(Here it comes, another heartache)
Here it comes, another fall
(Here it comes, yeah, yeah, yeah)Here it comes, another heartache
(Here it comes, another heartache)
Here it comes, another fall
(Here it comes)Here it comes
