 Harder than a nigga tryin' to impress God
 We'll pull your whole deck, fuck pullin' your card
 And still take my guitar and take a walk in the parkAny play the sweetest melody the street ever heard
 Now bitches suckin' on my nouns and I'm eatin' their verbs
 Get full and niggaz, niggaz
 Pop, pop, lock, lock to the, to the beat, beat assAs if pit bulls went out of style, made a vow to myself
 If it's for the wealth I'll stop
 Well, put I like this, it's like me selling some dope
 Because my girlfriend wants to shopWrong reason, whatever the season
 Hey winter, spring, summer or fall, I don't stall
 Slow drag wit your brain against the wall
 Yeah, nigga naw, we learn to the side don't fallAll y'all, fuck boys
 Tuck toys inside your pants

Just to pull it out, point it at the ground
And make a nigga wanna dance Now what that be for, you're on that reefer and on that 2pac
In front of them ooh wops
Tryin' to show out that's the hoe route
Talkin' loud, talkin' 'bout that's gangsta shit
