Bend Time Back Around

Paula Abdul

He led me astray when my mind was weak
That's all I can say, baby
He filled me with words and knew I would believe
He's nothing but dirt, sorry
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
He's a pretty face, dressed up to the T
Nothing but a space underneath
I felt like a fool, I turned from you so fast
Time takes me from you, bend it back
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
If I could do it once again, I'd never let the bastard in
He's puttin' on a show, the curtain's crashing down and closin'
I wish to back up my steps, so you'd have nothing to forget

A flip to reality, I wanna pretend you did not see it
Twisted up in knots, he had me so confused
He turned my every thought away from you
I was drifted out on a fantasy
But now I'm comin' 'round back to me
If you bend time back, bend it back to me
(Oh)
If you bend time back, bend it back to me
(Oh, I said)
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
If you bend time back 'round, will you bend it to me?
