

Maybe

Birdy

Maybe,
I know it's just maybe.
And we're only dreaming
For how this will go By maybe
One day this daydream
Will turn into real things
For all that we know We could be doing anything that we love
Just be carried by the way that the wind blows
You could be do anything you dream of
If you believe in the things
That make you strong Someday
We'll meet on the high street
We'll laugh about when we
Worried about what we might be
Then maybe
We'll talk about old days
We'll smile in our old ways
You'll always be part of me We could be doing anything that we love
Just be carried by the way the wind blows
You could be doing anything you dream of
If you believe in the things
That make you strong You could be doing anything you dream of
If you believe in the things
That make you strong Maybe
I know its just maybe
And were only dreaming
For how this will go
Just maybe
(You could be doing anthing you dream of)
Maybe
Maybe
