Always Enough

Susanna Hoffs

(Susanna Hoffs / Andrew Brassell)I can see you
Your head's hanging low
You think you might not make it through
Take a moment and take it slowI can hear you
You say your hopes running low
You think you might not make it through
Listen up cause I'd like you to knowHold tight my boy
Time will teach
You to reach
All that you need
All those you loveI can feel you
Unsure head to toe
You're always saying that you're coming unglued
I should've told you a long time agoHold tight my boy
Time will teach
You to reach
All that you need
All those you love
How to believe when I say
You're always enough
You're always enough
You'll never lose my loveI can see you
I can feel you
You think you might not make it through
Listen up cause I'd like you to knowHold tight my boy
Time will teach
You to reach
All that you need
All those you love
How to believe when I say
You're always enough
You're always enough
You're always enough
