Goodnight

Printer

When you need someone that you can turn to
Honey don't you know, you can turn to me
And if you need a hand to help you hold on
Honey don't you know, you can hold on me
Because you've given me the moon
Oh, of this you're unaware
And you'll be moving on so soon
To the life that's waiting out there
Goodnight my sweet angel, it's time to close your eyes
Goodnight my sweet angel, I'll see you when you rise
