

Searching for a Girl

Jah Cure

Looking for love
Now, woah, yeah
Looking for love I've been searching for a girl like you
Searching for a girl like you
I've been searching for a love like you
Searching for a love like you Girl, you know how much I care for you
And I will always be there for you
All my life I live it for you
And that is so true Don't play with my love
We've got something serious going on, girl
Don't play with my love, yeah
Something serious going on How could you say you love me
And you never let me know?
Now that you say you love me
It's important that I know Feeling is mutual
Baby, I feel the same
Feeling is mutual
For two will play this game I've been searching for a girl like you
Searching for a girl like you
I've been searching for a love like you
Searching for a love like you Girl, I got a message for you
Deep in my heart, it's so true
I'll tell you now, don't play with my love This is something serious going on
Play with my love, girl
I know what's in my heart, yeah I'm not your toy boy, ohh, yeah
I'm here to bring you joy, joy
I'll be your joy and laughter
Joy and laughter Feeling is mutual
For two will play this game
It's mutual
Everyday is a natural day
Oh, oh, for you, my love for you to know I've been searching for a girl like you
Searching for a girl like you
I've been searching for a girl like you
Searching for a girl
