

# Run Right Back

## Moon Taxi

Meet me in the middle  
You know I need you close  
Over this highway  
it's the little  
things I seem to miss the most  
Oh is that you out walking  
Or do I see a ghost  
Am I dreaming  
Am I wishing  
or just a little bit of both  
'Cuz I run right back  
From Carolina  
and I run right back  
From New Orleans  
'Cuz I can't forget  
the times I held you  
and all those songs you sang with me  
and all those songs you sang with me  
I've been down through the valley  
Alleyways and Boulevards  
Oh but I would go forever  
just to get to where you are  
and we all have our stories  
and we all made it through  
oh but I don't know if I  
would have made it without you  
oh but I don't know if I  
would have made it without you  
yeah I run right back  
from Carolina  
and I run right back  
from New Orleans  
'Cuz I can't forget  
the times I held you  
and all those songs you sang to me  
yeah I run right back from Carolina  
and I run right back  
from New Orleans  
'Cuz I can't forget the times I held you

and all those songs you sang with me

We all have our stories

we all made it through

oh but I don't know if I

would have made it without you

oh but I don't know if I

would have made it without you

yeah I run right back

from Carolina

and I run right back

to Tennessee

'Cuz I can't forget

the times I held you

and all those songs you sang with me
