

# Keep Your Head

## The Ting Tings

The room's green, it's got writing on the wall  
It's got one chair, it's kinda small  
Dirty shoes running past the door  
And then you go round, beat yourself up  
Ten minutes to go and I wanna go home  
Ten minutes to go, yeah, I've got to go home  
Ten minutes to go and the air, it don't feel clear  
Everybody disappear, you're in it on your own  
I'm fourteen, intimidated, and she's just fourteen  
She's getting pulled from the opposite side  
Until it breaks down  
Blame it on the wrong crowd  
Stay, more make up, hair dye  
Ten minutes to go, you know she should have gone home  
Ten minutes to go, yeah, you should have gone home  
Ten minutes to go and the air, it don't feel clear  
Everybody disappear, you're in it on your own  
You can't sleep, you know it's over  
But you just can't sleep, you've gotta face it  
Gotta go outside and do the day walk  
Living with the lights off, ain't nobody home?  
Ten minutes to go, you know you wanna stay home  
Ten minutes to go, yeah, you wanna stay home  
Ten minutes to go and the air, it don't feel clear  
Everybody disappear, you're in it on your own  
Keep your head, keep your head  
Just keep your head, keep your head  
(Keep your head)  
You wanna keep quiet, keep it on the right side  
If you know you're gonna be coming off  
It's gonna make you open your eyes  
(Keep your head)  
I said, now, open your eyes, you know it  
(Keep your head)  
You wanna keep quiet, keep it on the low side  
Yes, you're gonna see, ten minutes to go  
And you're keeping it, your head's up  
(Keep your head)  
Keep it low, be right, push it kinda low, so, open your eyes
