Satellite

Shaun Groves

My soul takes flight, drawn to your light
Satellite
Can't get enough, orbiting your love
SatelliteYou are the center of my universe, universe
You are the center of my universe, universeYour gravity, has captured me
Satellite
My soul revolves, my will dissolves
SatelliteYou are the center of my universe, universe
You are the center of my universe, universeYou pulled me in, you set my spin
You chart my course, around your wordYou are the center of my universe, universe
You are the center of my universe, universeYou are the center of my universe, universe
You are the center of my universe, universeI'm your satellite
