

# How It Ended

## The Drums

Those days when I would sit around with you  
Oh, there's nothing like it  
And even when my heart was black and blue  
Oh, there's nothing like it  
And everything before and after you  
Oh, it doesn't cut it  
So do you remember the old times  
Those were the only times  
The only times  
I don't know how it ended  
I don't know where you ran to  
I'll always be right here  
I don't know how it ended  
I don't know where you ran to  
I'll always be right here  
You never have to say that you were wrong  
I know I'd do it all again  
Even if it was wrong  
And I could write a thousand more  
Songs about you  
Transcribed by  
Before this one's done  
The next one's begun  
So do you remember the old times  
Those were the only times  
The only times  
I don't know how it ended  
I don't know where you ran to  
I'll always be right here  
I don't know how it ended  
I don't know where you ran to  
I'll always be right here  
How will this end  
And when will my life begin  
Again, again, again, again
