

Digital Prophecy

Hypocrisy

Yeah Another victim of violence
A new era of hate
Is coming your way
On different levels of pain Who will be saved? Radio controls your mind
Get online
I'm on your screen
Skinned from behind
Make you writhe I am your digital God
A new generation of religion
I am your digital God
Coming to get you A new dimension of Messiah
Accept and move below I am God Erase away yesterday
And live with the program
Brainwashed minds
And stay on the line
Now your brain is fried I am God Radio controls your mind
Get online
I'm on your screen
Skinned from behind
Make you writhe I am your digital God
A new generation of religion
I am your digital God
