

Go Go Go

Nicki Bluhm and The Gramblers

I used to take the long way round
When the mountain was too tall
Now my sights are set upon
the highest peak of all
You taught me how to climb and now
I'm reaching for the top
Every step is stronger
and I don't ever want to stopChorus:
And it's go, go, go
It you don't then it's gonna to be gone
Can't be slow, slow, slow
Train will leave if you don't get on
One thing that I know
Gotta do if it's gonna get doneThe fisherman grows hungry when
His nets are never cast
The freighter takes a hit
If she can't make her miles fast
The treasures for the finding
But the leads won't always last
I believe if I keep searching
Then my time will come to passChorus:
And it's go, go, go
It you don't then it's gonna to be gone
Can't be slow, slow, slow
Train will leave if you don't get on
One thing that I know
Gotta do if it's gonna get done
