

Good Intentions

Hot Rod Circuit

i see you with your book of good intentions that you haven't read
with your fear of confrontation
thats all in your head
sorry that you're so damn down
you said that you felt like you had been dealt a bad hand
you did exactly what they told you in the end
i'd take you back under one condition
this is just a test
overwhelming pressure pounding on mychest
sorry that it's not my style
why should i try when my back is against the wall.
