

# Cutting It Fine

## Asia

The door swings open but you won't go in  
You hate the movie that you haven't seen  
You couldn't see what I have in mind  
I see you laughing but you're  
Cutting it, cutting it fine  
You never should have done those things to me  
There's one thread left 'tween you and history  
And while our temperature is rising high  
I'm warning now that you're  
Cutting it, cutting it fine  
Cutting it, cutting it fine  
Cutting it fine, cutting it fine  
Cutting it fine

You gambled all on one important game  
Now take the debts and don't complain  
Your game was up, I saw it all the time  
I saw that vice girl you're  
Cutting it, cutting it fine  
Your sole advisor always watch yourself  
You never listen to no one else  
You were the one who ignored the signs  
Dancing on a fine line  
Cutting it fine  
Cutting it, cutting it fine  
Cutting it fine, cutting it fine  
Cutting it fine, cutting it fine
