

# Madison Park Bell

## Satellites

Madison park bell  
Chiming out your name  
On every hour  
It reminds me again  
Upstairs air-con dripping onto mine  
That is not on  
Gotta save a dimeI've never known anything like it before  
I've never known anything like it before  
I've never known anything like it beforeAnd I've never known anything like you before  
Yellow flashing by while the sirens cry  
Hear your name in the New York rainI've never known anything like it before  
I've never known anything like it before  
I've never known anything like it before
