Black Wedding

Naftule's Dream

You were unaware that diamonds came with debt
Ironic sure but that's the way it is
Got my vows off the Internet
You say crying weakens my immune systemBut don't forget that if you pray for me
I'll pray for you and cash flow too, why not?
I said, if you pray for me
I'll pray for you and cash flow too, why not?It was a black wedding, you could hear the organs not
The violins or the words the Pope was saying
It was a black wedding, you could hear the organs but
No drunken snoring or real HallelujahsDumb people swore they saw the devil
But most pray they wouldn't last a winter
It was a black wedding
Throw those blessings all aroundSo, you're finally viewing
This at five foot six
It's not roses like your mama said
We're not spoon fed anymoreSo you gonna tell
All our kids I was an accident
Ironic true, but it's the way
You act when you're upset
So let's take this outsideWe see our mirrors from outside
And he said we are what we try
We stay hidden all our livesIt was a black wedding, you could hear the organs not
The violins or the words the Pope was saying
It was a black wedding, you could hear the organs but
No drunken snoring or real HallelujahsDumb people swore they saw the devil
But most pray they wouldn't last a winter
It was a black wedding
Throw those blessings all aroundWhat else is there to know when our Bible's here?
What else is there to know when your Bible's here?
There are no lies to find when the page is bare
What else is there to know when your tax is shared?Outside, we're seeing mirrors from outside
And he said we are what we tried
We stay hidden all our livesIt was a black wedding, you could heard the organs
Words the pope was saying
It was a black wedding, you could hear the organs but
No drunken snoring or real HallelujahsThe gravedigger said it's his cathedral
We drank holy water like it was the last supper
It was a black wedding
Throw those blessings all around

(What else is there to know when our Bible's here?)It was a black wedding
Throw those blessings all around
(What else is there to know when your tax is shared?)
It was a black wedding
Throw those blessings all around
