

# Hard Times (james yuill remix)

Patrick Wolf

As they dig your ditches count my stitches  
Generation justice wishes for world at war  
Final score, media come and abhor us These are hard times we'll work harder, harder  
Through these hard times I'll work harder, harder Divided nation in sedation, overload of information  
That we have grown up to ignore mediocrity applauded In these hard times we'll work harder, harder  
Through these hard times I'll work harder, harder  
For resolution show me some revolution  
This battle will be won Forced to count the hours since Two Towers  
Fell to fiction those higher powers  
Putting gods to war, who keeps score  
Ignorance is still adored And through these hard times we'll work harder, harder  
Give me hard times, I'll work harder, harder  
For revolution hard time for some resolution  
Time for some revolution, this battle will be won If they only see you with their fear  
And they only hear you with their pride  
And they only see you with their fear  
And they only hear you with their pride And work harder, harder, harder, harder  
Harder, harder, harder, harder, hard times
