Private

Amen

Nothing goes on too long
Nothing goes on too long
Nothing goes on too long
Nothing goes on too longWell I told the truth when I fucked the lives
Drugged down the city and burnt house of lies
They suck it up suck it in sink the needle and let's begin
Symbols often reward than they're used toYou cannot wait another day
So let the needle hit the tray
In your private garden it's your private fear
In your private gardenNothing goes on too long
Nothing goes on too longI pick around for 40 days and nights
The cities blaze and wasted radiates the nights
They suck 'em up, they shoot 'em in they feel the needle that let's it in
More drugs that kill than they're used toYou cannot wait another day
So let the needle hit the tray
In your private garden it's your private fear
In your private garden someone's gotta pay that fearIn your private garden it's your private fear
And if it comes down to someone's gotta pay that fear
In your private garden it's your private fear
Sometimes it gets too long too long to stand in here
