Bitter Sweet

Paul Renna

Pick up my body move along
Cause time stands still if you stay to long hey
I just wanted to fall in love
And dream away with the stars above heyDance with me forever
Lets make it sweet sweet and
Everyday gets bitter and bitter sweet sweet
And everyday gets bitter and bitterThe rain pours down upon a hill
Lets wash away all the things we've said hey
I just wanted to fall in deep; find a way to fall back to sleep heyDance with me forever
The time is now or never
To make it sweet sweet
And everyday gets bitter and bitter
Sweet sweet and everyday gets bitter and bitter
Sweet sweet and everyday gets bitter and bitterTurn on the lights cause they've been off to long
I said hey
I just wanted to fall for you
And find a way to sing out the blues heyDance with me forever
The time is now or never
To make it sweet sweet
And everyday gets bitter and bitter sweet sweet
And everyday get bitter and bitter sweet sweet
And everyday get bitter
repeat.....
